

12K 2-POST

ECONOMICAL SYSTEM UNMATCHED VALUE

Ready to handle loads of 12,000 pounds, the John Bean® 12k Two-Post lift can work on a wide variety of light and medium-duty applications for today's modern shop.

Heavy-duty front and rear arms work with a standard set of screw pads and adapters to lift most vehicles in mere seconds.

Rubber door guards on the columns prevent accidental vehicle damage.

Quickly and safely disengage both columns simultaneously with an easy-to-use, Bowden cable release.

We've designed a padded overhead bar that instantly stops the lift, protecting the vehicle from unintentional damage.

The John Bean 12k Two-Post is a lift for those that get it done, day in and day out.

TWO-POST AUTOMOTIVE LIFT

TWO-STAGE FRONT & REAR ARMS

Heavy-duty two-stage front and rear arms enable a wide range of symmetric lifting.

ADJUSTABLE HEIGHT EXTENSION

Increase your service capability to work on taller vehicles, including the largest trucks, SUVs, and cargo vans, with our two-foot column height extension.

ADJUSTABLE URETHANE SCREW PADS

Heavy-duty polyurethane pad provides ample surface area to the vehicle frame and the telescoping feature provides simple access to factory-recommended lift points.

INCREASED CAPACITY FOR LARGER VEHICLES

Work on everything from a mini car to an RV with our high-capacity lift products for maximum revenue potential.

WHEN GOOD ENOUGH ISN'T ENOUGH, JB.
