INTRODUCING THE 18K 4-POST ALIGNMENT LIFT SYSTEM

Professional Alignment Lift Solutions.
Premium Features.
Heavy-duty lifting with premium performance.

Image may vary slightly from actual product.
18K Four Post Lift Features

- Alignment level at twenty positions
- 24” (60.96cm) Pro-Style decks for wide-track vehicles and no deck adjustment
- High performance 9/16” Ø, 6 x 37 lifting cables provide durability and added safety
- Larger 8” pulleys with high performance fiber wound bushings for less wear and longer cable life
- Dura-Glide lifting system integrates low wear, ultra high molecular weight polyethylene glide blocks to ensure long term alignment accuracy and smooth operations
- Large profile columns have extra internal reinforced forms to spread and support the load
- Built in anti-sway system
- Hidden lifting cylinder mount under the runway adds accessibility and is protected from vehicle damage
- Hydraulic protection with pressure compensating flow control and velocity fuse check system
- 65” full floating rear slip plates
- Stainless air lock release cylinders for each column
- Long 50” approach ramps provide gentle 10° drive-on angle for lower profile vehicles
- Filter/Regulator/Lubricator (FRL) protects air systems
- Certified and approved to the current ANSI/ALI lift standard
