

# T5325

## CORE FEATURES PROFESSIONAL SERVICE

Built to get the job done, the John Bean® T5325 combines all the helpful features you need to change tyres the right way.

Practical and simple to use, the T5325 offers a tilt-tower design that provides ample clearance to load tyres onto the turntable.

The T5325 is equipped with PROspeed™ technology to automatically monitor torque and maintain optimum rotational speed while ensuring the safety of the tyre. Ergonomic and effective, the pedal-operated on-floor bead breaker makes quick work of traditional and high-aspect tyres. Pneumatic bead assist utilizes a three-piece design that allows a single technician the ability to mount and demount challenging low-profile tyres.

Simple to operate, yet highly effective, the top-side bead seater utilizes compressed air to seal the tyre to the rim.

The T5325 provides all the advanced features you need for your tyre changing service.

**Be FAST**

## TILT-TOWER TYRE CHANGER

### TILT-TOWER

The pneumatic Tilt-Tower post provides maximum clearance for installing the tyre on the turntable.

### PROspeed™

The innovative self-adjusting technology provides the optimum torque and maximizes the rotation speed for safe, efficient operation.

### ON-FLOOR BEAD BREAKER (PEDAL-OPERATED)

Traditional side-shovel bead breaker with ergonomic pedal-control positioned away from the shovel; the fastest solution for standard, soft sidewall, and high-aspect tyres.

### PNEUMATIC BEAD ASSIST

Our three-piece Pneumatic Bead Assist features a top roller, pressing foot, and lifting disk, to make it simple for a single technician to mount and demount low-profile and high-performance tyres.

**WHEN GOOD ENOUGH ISN'T ENOUGH, JB.**
