SYSTEM III-E

UNCOMPLICATED SYSTEM UNDENIABLE ADVANTAGE

If you regularly work on larger wheels and tires that are common on today's modern performance cars and SUVs, the John Bean® System III-E swing-arm tire changer is a fantastic addition to your shop.

The System III-E allows you to work on tires up to 15 inches in width and 42 inches in diameter, which covers a range of vehicles.

An ergonomic, pedal-operated on-floor bead breaker allows technicians to work with tires all the way up to 15 inches wide with ease.

Powered by twin cylinders, the nylon-covered clamping jaws make quick work of holding large wheels in place on the turntable while minimizing the chance of damage.

Big features packed in a compact footprint - the System III-E is the workhorse you need.

SWING-ARM TIRE CHANGER

SWING-ARM

The mounting arm swings to the side so that the machine can be installed in a space-saving way directly near a wall.

ON-FLOOR BEAD BREAKER (PEDAL-OPERATED)

Traditional side-shovel bead breaker with ergonomic pedal-control positioned away from the shovel; the fastest solution for standard, soft sidewall, and high-aspect tires.

PNEUMATIC BEAD ASSIST

Our three-piece Pneumatic Bead Assist features a top roller, pressing foot, and lifting disk, to make it simple for a single technician to mount and demount low-profile and high-performance tires.

ADJUSTABLE CLAMPING JAWS

Self-centering nylon-covered clamping jaws protect the wheel and provide a secure grip.

WHEN GOOD ENOUGH ISN'T ENOUGH, JB.

JohnBean

SYSTEM III-E

COLUMN-INTEGRATED AIR TANK

Unobtrusive, vertical design, column-integrated air tank helps conserve valuable shop space with a large volume for increased blasting capabilities.

TABLETOP BEAD SEATER

A direct burst of compressed air comes through the clamping jaws to facilitate bead seating.

TECHNICAL SPECIFICATIONS

Max Rim Diameter	24" 61cm
Max Tire Width	15" 38cm
